- Maintain no more than a one-month supply in your vaccine fridge at any time.
- Refer to the current **Publicly Funded Immunization Schedules** for Ontario for eligibility criteria. Call for questions on recommended immunizations.
- Timiskaming Health Unit has the authority to review all vaccine orders and adjust accordingly if requested amounts appear to exceed a one-month supply.

By submitting this order and min/max temperatures (attached), I verify on behalf of the practice the following:

- Refrigerators have maintained temperatures between +2°C to +8°C and temperatures are documented twice daily
- Accurate temperature logs will be provided upon request and are kept on site until our next annual cold chain inspection
- All temperature excursions outside of +2°C to +8°C (if applicable) have been reported to and recommendations regarding usage of the effected vaccines have been implemented by the practice
- A contingency plan is in place should a power outage and/or cold chain incident occur, including vaccine coolers and extra temperature monitoring devices

Note: If You are unable to verify any of the above, call **Darlene Cochrane** at 705-647-4305 or email at [cochraned@timiskaminghu.com](mailto:cochraned@timiskaminghu.com).
